

I hope that duck pond does a real good job of work
this fall. Good if you don't have to work hard, just sit in the office
and believe a lil once in a while. My biggest headache at present is
Schwartzkopf that guy drives me nuts. I am sure it only a bad but
him in his place dam quick.

Well anyway I will be after Labor Day.

Herb:

I was downtown this am to pay your insurance. Mel Butler
sed he had just received a money order from you so that is all
settled. We both had the 15th marked on our calender so we
wouldnt forget it.

I expect to leave for NYC next Aug 24, I can take optional
routing and stop off at WCK and look that joynt over. B4 I leave
officially I will take a cuple days vacation so it wont be too
long, or at least wont look too long on the books. This stop
over will cost me a lil dough from my own pocket. Oh well u
did it so I guess I can.

I wrote to Frank McLaghlin about both of us being on 35.1
and 35.2 but Frank sez they are converting to 152 so he isnt
worried. Imagine Schnell picked 1 mobile frequency for the
entire city of Chgo. He is nuts and I told Frank so. Brother
Kurtzowitz at WPEP is all changed over to 152, so you can see
the trend. Quandt is still waiting for channels from Wyatt.
Wunderlich I understand is now midwest representative for Link.
Wont tt b sumpin?

I have wanted to drive out and see you but we just have too
dam much work. But since Jimmy sez u wl b bk Labor Day I will
see u after the convention.

A guy was in the other day, he just received his masters
degree in EE with a major in Communications from Madison. He
wants a job. Imagine a guy with such a degree gg 2 this outfit
looking for a job. Things must be getting tuff.

That big survey report will b out Aug 17 and if I can get a hold
of a copy it will make good reading. In connection with teletype
he sees no reason why we shud pay through the nose to Ma Bell every
month for rental, when we can buy our own and use our own lines.
TT xmtr and revr about 800.00 revr only 700 at least those are the
cost we revd from the TT Corpn at Chgo. This survey guy sez that he
will advise centralization of the phone facilities but not on the
telephone co basis. If there r high monthly rental charges by Ma bell
he is agin it. Anyway Tuesday the book of the week will be out and
I suppose it will be in the Sunday Journal, at least part of it.
If it does come out Sun I will clip it and mail it to you just to
play safe.

Dear:

I expect to leave for NYC next Aug 24. I can take optional routing and stop off at WGN and look that joint over. As I leave officially I will take a 30 day vacation so it won't be too long, or at least won't look too long on the books. This stop over will cost me a lil dough from my own pocket. Oh well it did it so I guess I can.

I wrote to Frank McLaughlin about both of us being on 35.1 and 35.2 but Frank sez they are converting to 152 so he isn't worried. Imagine Schmell picked I mobile frequency for the entire city of Chicago. He is nuts and I told Frank so. Brother Kutzowicz at WHP is all changed over to 152, so you can see the trend. Quaint is still waiting for channels from Wyatt. Wonderful I understand is now Midwest representative for Link. Went to a sampling?
